

Do you want to shape the future of education?

Then get involved in Next Practice

What if schools weren't organised in traditional ways ...?

What if leadership was pooled across schools ...?

What if primary and secondary schools merged ...?

What if schools agreed a town wide timetable ...?

See how schools are responding to these questions by joining the Next Practice community

Engaging with the community to deliver ECM and extended services

Creating all-through schooling

Collaboration to deliver personalisation at 14-19

Collaboration to support other local schools

The Innovation Unit

The Innovation Unit promotes innovation to improve education and related public services. We act as a catalyst for change, drawing on talent from both public and private sectors and combining the insights and expertise of teachers, school leaders, parents and pupils, with the ambition of education policy-makers. The Innovation Unit is currently working on 4 Next Practice projects which cover System Leadership; Resourcing Personalisation; Communities for Learning; Families and Schools Learning Together.

Do you want to shape the future of education?

Then get involved in Next Practice

Just suppose students worked from home or elsewhere ...?

Just suppose students led their own learning ...?

Just suppose timetables were flexible ...?

Just suppose the virtual school became a reality ...?

See how schools are responding to these questions by joining the Next Practice community

Harnessing technology for learning

The learning environment

The use of time

Co-constructing learning with pupils
